

**The School
of St Jude**

Work with us!

We're looking for qualified and passionate (Coding and AI Facilitator)

Want to work for one of the largest charities of its kind in Africa? Are you a passionate coder and AI enthusiast who enjoys inspiring young minds to explore technology and innovation? Are you skilled in teaching coding, introducing students to Artificial Intelligence, and guiding them to develop creative, practical technology solutions? Do you thrive in a dynamic learning environment where you can nurture problem-solving, logical thinking, and digital skills in young people? If this sounds like you... Keep reading!

About Us

The School of St Jude is a pioneering leader in charitable education within Africa. Every year we give 1,800 students with free, quality education, 100's of graduates with access to higher education, and provide more than 20,000 government school students with quality teachers. St Jude's is funded by generous supporters from around the world who make our mission of giving bright, poor Tanzanian students a free, quality education possible.

Who are you

- A technology enthusiast committed to empowering young people through digital literacy.
- Someone who enjoys using interactive, hands-on teaching methods to simplify coding concepts.
- Innovative, patient, and passionate about building students' problem-solving and logical-thinking skills.
- You go to sleep at night dreaming about shaping the next generation of coders and tech innovators.

What you'll do

- Teach programming fundamentals using languages such as Python, JavaScript, Scratch, or similar.
- Lead practical coding sessions, software development exercises, and mini-projects.
- Introduce students to computational thinking, algorithms, robotics, or basic app development.
- Prepare engaging lesson plans for the 2-month holiday program.
- Collaborate with the school's ICT and Career Guidance teams to deliver high-impact learning.

What we're looking for

- Degree or diploma in Computer Science, Information Technology, Software Engineering, or related field.
- Strong programming background with experience teaching or training youth.
- Ability to simplify technical concepts for learners aged 16–18.
- Comfortable using coding platforms, online tools, and digital resources.
- Dedicated, organised, innovative, and passionate about youth development

Why us

- The opportunity to use your talents and expertise to fight poverty through education and make a positive impact in Tanzania
- A flexible and supportive community of international and local employees
- Ample opportunities for career progression and development
- Mid-morning tea and lunch (during working days)
